

Job Description for Roofing Labourer

Hours: Minimum 40 hours per week

Reporting to: Project Manager/Works Director

Salary: £90- £100 per day DOE

We are a well-established commercial and industrial roofing company operating nationally and looking for a roofing labourer to work on our projects from start to finish.

This position allows the right candidate to grow and develop their skills within the team. The individual will need to be confident and personable, with good communication skills, as they will maintain and support the delivery of projects from pre-start to client handover.

Being well organised and able to take the initiative to ensure tasks are completed are essential skills, as well as being comfortable liaising and working with all team members. The candidate should have sound working knowledge and experience in the construction industry.

Responsibilities:

Material Handling and Site Preparation:

- Load and unload materials, tools, and equipment from vehicles and transport them to the job site as required.
- Assist with preparing the work area, including setting up scaffolding, ladders, and other access equipment.
- Ensure materials are stored safely and securely, minimising the risk of damage or theft.

General Labour Support:

- Assist roofers and ladders with installing, repairing, and maintaining industrial and commercial roofing systems.
- Perform tasks such as cutting materials, fastening components, and cleaning the work area.
- Follow instructions from the Roofing Site Supervisor and other team members to complete tasks effectively and efficiently.

Health and Safety:

- Adhere to all applicable health and safety regulations and company policies while performing labour tasks.
- Use appropriate personal protective equipment (PPE) and ensure all tools and equipment are in good working order.
- Report any hazards, incidents, or accidents promptly to the Roofing Site Supervisor and take necessary steps to prevent recurrence.

Teamwork and Communication:

- Work effectively with other team members to complete labour tasks efficiently and to a high standard.
- Communicate any issues or concerns related to project activities with the Roofing Site Supervisor and other team members.
- Participate in team meetings and training sessions, as required.

What we are looking for:

- Be an effective communicator with good listening, spoken and written skills.
- Ability to communicate effectively. Communications include listening, speaking and written.
- Good level of fitness and ability to work at height.
- To work on your own initiative and have attention to detail.
- Ability to work well with others and be a good team player.
- Good knowledge of industrial and commercial roofing.
- Patience and ability to remain calm in stressful situations and remain flexible.
- Excellent customer service skills.
- Show professionalism at all times.

Benefits:

- Pension scheme.
- Bike to work scheme.
- 20 days holiday plus Bank Holidays.
- Job security.
- Career development and progression.
- Company wellness scheme.
- Company events.

Job Type: Full-time, permanent

Salary: £90-£100 per day DOE

Schedule: Monday to Friday: 0800-1700

Education:

Essential

- Up-to-date CSCS card.

Experience:

Essential

- Previous experience in construction or labour roles is essential.
- Basic understanding of health and safety regulations and requirements.

Skills:

Essential

- Physical fitness and the ability to perform physically demanding tasks, including lifting and carrying heavy materials and equipment.

Licence/Certification:

- Full UK driving license (Desirable).

Work Location:

- On-site.
